

Dispensers

DSP Dispensing Units

The Shuttleworth Dispensers Range has been designed to enhance infection control, hygiene, and workflow efficiency across hospitals, clinics, and care environments. Manufactured from durable, easy-clean materials, these solutions ensure that essential consumables remain secure, accessible, and organised for staff in high-traffic clinical areas.

The Hand Gel Holder provides a simple but effective method of ensuring sanitiser is always within reach, encouraging compliance with hand hygiene protocols at the point of care. To support glove storage, the range includes robust Triple Glove Dispensers, available in standard and medium sizes, allowing safe segregation of glove types and sizes while reducing cross-contamination risks.

For wider consumable management, the Shuttleworth range also features Single Apron Dispensers for streamlined PPE access, as well as combined Glove and Apron Dispensers in triple configurations. These integrated designs save wall space while ensuring essential items are stored together, supporting efficiency in busy wards and treatment areas. Built to meet the demands of infection-sensitive environments, all dispensers are easy to clean and maintain, ensuring long-term reliability.

| Code | Width | Depth | Height |
|--------|--------|--------|--------|
| DSP001 | 10cm | 10cm | 12cm |
| DSP002 | 27.1cm | 9.5cm | 38.3cm |
| DSP003 | 41cm | 16.2cm | 16.4cm |
| DSP004 | 25.7cm | 9.2cm | 43.5cm |
| DSP005 | 42cm | 14.4cm | 60cm |
| DSP006 | 41.3cm | 16.2cm | 42.5cm |
| DSP007 | 90cm | 25.2cm | 56.3cm |

Configuration

- DSP001: Hand Gel Holder
- DSP002: Triple Glove Dispenser
- DSP003: Single Apron Dispenser
- DSP004: Triple Glove Dispenser, Medium Size
- DSP005: Triple Glove & Apron Dispenser
- DSP006: Triple Glove & Apron Dispenser, Medium Size
- DSP007: Combined Bedpan/Urinal Bottle Holder
