Delivery
An administration charge of £12.50 will be added to orders under £500.00 net excluding the carriage costs unless agreed differently in writing. Anything over £500 net will be delivered free of charge to mainland England, Wales and Scotland. However, please note that some items may incur an extra delivery charge i.e. Offshore islands, Northern Ireland, export overseas, very large heavy items etc. We will advise you of the costs at the time of ordering. If you have any special delivery requirements, please state these at time of ordering. Delivery will take place from Monday to Friday (excluding Bank Holidays) between the hours of 07.30–16.30. The nominated delivery point must be suitable to accept Heavy Goods Vehicles.

N.B. All product descriptions and information are believed to be correct at the time of publishing. We reserve the right to change any products and their descriptions at any time. More information is available in our terms and conditions at the end of our catalogue.
Shuttleworth Medical Ltd
Originally established in 1953 as 'W Shuttleworth & Co (Metal Workers) Ltd', we are renowned manufacturers and suppliers of hospital ward products.

With over 65 years of experience our in-house design and manufacturing capability means that, as well as our standard range of hospital products, we are also able to design bespoke products to suit user requirements.

Many of our products were originally designed in conjunction with staff from the NHS and we continuously strive to innovate and meet the changing needs of the healthcare market, with the advent of new materials and technologies.

Product Warranties
We have confidence in the quality and reliability of our products and offer a three year warranty across our range. This does not cover accidental damage or ‘wear & tear’ (more information is included at back of catalogue)

Please note these select components are excluded from the three year warranty and are limited to a 12 month warranty:

- Actuators
- Electronic components
- Plastic components
- Locks & Keys
- Rechargeable batteries
- Gas struts
- Castors
- Drawer runners
- Upholstery

Dispensing Units

Hand-gel, glove and apron dispenser units play a vital role in care home and hospital environments and we have a variety of dispenser units available.

Our double or triple wall-mounted glove and apron dispensers allow simple storage and easy access to both gloves and aprons. Ideal for use in medical and laboratory environments, these units allow proper infection control and hygiene maintenance to be simplified.

Each of our dispensers offer a quick and practical solution to the routine replacement of disposables. Our wall-mounted hand-gel dispensers and bedpan/urinal bottle holders are robust, secure and can be easily removed for cleaning.

**Standard Features:**
- Manufactured from mild steel (with exception of HOLDER-BDR-UBH-6-SS)
- Wall mounting with easy removal
- Powder coated white epoxy for ease of cleaning

**Units are available which dispense:**
- Aprons
- Gloves
- Bedpan/Urinal bottle
- Hand Gel

Drip Stands

Our drip stands are available as either wall mounted or portable versions. Each stand hook height is easy to adjust, whilst the portable versions provide optimum manoeuvrability throughout healthcare environments.

We have two or four hook versions, plus the option to select a weighted base for increased stability. Each is manufactured from stainless steel to be hygienic and easy to clean.

**Standard Features:**
- CE Marked — Class I Medical Devices
- Conforms to BS3619:1976 Stability requirements for Mobile Infusion
- Manufactured from 304 grade stainless steel
- Five legged aluminium cast base for portable versions
- Mounted on five swivel castors or provided with wall mount
- 4 point fixing for secure wall mount
- Adjustable hook heights

**Available Options & Accessories:**
- Two or Four hook options
- Weighted base available for stability

General Product Information

Our production materials, manufacturing processes, maintenance/aftercare advice and other reference information, all relevant to the Shuttleworth Medical products currently available.

Product Sizing
- Dimensions are stated in millimetres (width x depth x height)
- Please ensure you are fully aware of the item size prior to ordering

Keys & Locks
- All locks should open/close easily and operate smoothly. If they do not, arrange those locks be checked immediately and have these replaced if required
- Locks should be periodically lubricated with a dry lubricant, other than this no maintenance is required. Never use oil on our locks, as this will cause damage
- We offer additional/spare keys for all our locks.

Castors
- Suitable castors are selected to satisfy the anticipated use of the product
- Castors will need regular cleaning to ensure a long life, no other maintenance is needed and no oils should be used on any of our castors.
- We advise all fittings are regularly checked and tightened as needed to ensure they are secure and safe for use.
- All castors include non-marking tyres (excludes select anti-static castors)
- Our anti-static castors include a yellow indicator near the tyre
- Anti-static castors should have their tyres cleaned periodically to remove any dirt/dust and ensure a good contact between the tyre and ground

Stainless Steel
- We use 304 stainless steel which is non-magnetic whilst resistant to oxidation and corrosion.
- Note: Certain chemicals can still damage the surface of our stainless steel. Iodine can cause serious corrosion and should never be used as a cleaning agent.
- Other grades of steel are available on request (316 for example)

Laminates & Wood
- Flame retardant ‘High Pressure Laminate’ bonded to MDF
- We only use water based adhesives and varnishes
- Melamine faced MDF
- Edges are protected with 2mm ABS high impact edging tape
- Both our laminated and melamine panels offer a level of resistance to water penetration during regular use

Upholstery
- Our upholstery has been tested as capable of withstanding the most rigorous of cleaning regimes. Our fabrics can be used with all NHS approved cleaning solutions such as Chlor-Clean, Haz-Tab, Milton and Tristel. Clinell wipes and other alcohol based wipes are also safe to use on our vinyls.
- The fabrics are resistant to most mild acids, alkalis and household stains. Some substances such as ballpoint pen, lipstick, newsprint and food colourings may be absorbed by the vinyl and cause permanent staining. This can be minimised by immediate cleaning with a damp soapy cloth or sponge.
- Care should be taken to protect the vinyl from oil based products (including body oils) as continued contact will cause the vinyl to harden.
- To maintain their appearance, fabrics should be cleaned regularly to remove fatty substances/soiling. Light soiling can be removed by wiping with a damp, soapy cloth/sponge and rinsed with water before drying. If dirt is ingrained, the surface may be scrubbed with a soft brush. For stubborn stains mix one part methylated spirits to five parts water for use. A very mild antiseptic may also be used.
- Caution: do not use chemical bleaching materials, solvents, abrasive cleaners, wax polish or aerosol spray polishes. The use of these substances is likely to be harmful to PVC coated fabrics and repeated use can result in the removal of the plasticiser of the PVC, which will result in hardening and subsequent cracking of surface.

Latex
- All of our products are latex free

Paint
- We only use lead-free epoxy/polyester powder paint
- Where possible colours are applied in special booths to recycle any overspray
- Alternative colours are available, this may incur a small surcharge

Cleaning
- The maintenance of high standards of cleanliness on all surfaces and equipment is a crucial factor in the prevention and control of infection. Whilst dust, dirt and moisture can harbour infection, the key risks are associated with contamination arising from contact with blood, body fluids, mucous membranes and damaged skin. In all cases surfaces must be thoroughly cleaned and disinfected in order to destroy pathogenic micro organisms.
These govern all our contracts for the sale of goods ("Goods" which expression includes spare parts and ancillaries) and services (the "Contract"). Save to the extent that we have agreed to the contrary in writing we only offer our Goods and services on the basis of the Conditions and all orders that purport to exclude them will be invitations to treat and any acceptance that purports to exclude them will be ineffective. We will accept changes to the Conditions if in writing and these cannot be inferred from a course of action.

1. BASIS OF THE CONTRACT
The Seller – Shuttleworth Medical Ltd carries on the business of the manufacture, supply and servicing of medical furniture.

The Buyer – The entity who purchases from the Seller.

Contract – Shall be governed by English law and the parties submit to the jurisdiction of the English courts.

2. VALIDITY
Unless previously withdrawn our tender is open for acceptance for the period stated therein, or when no period is stated within 30 days only after its date.

3. ACCEPTANCE
The acceptance of our tender must be accompanied by sufficient information to allow us to proceed with the order.

4. LIMITS OF CONTRACT
Our tender includes only such goods, accessories and services as are specified therein.

5. DRAWINGS
All descriptive and forwarding specifications, drawings, particulars with regard to size and weight, submitted with our tender are approximate only and shall not be binding. All samples, drawings, descriptive matter, specifications and advertising issued by the Seller and any descriptions or illustrations contained in the Seller's catalogues are issued or published for the sole purpose of giving a reasonable description of the Goods described in them. They shall not form part of the Contract and this is not a sale by sample.

The Seller will not be under obligation to supply any drawings unless agreed in writing. All drawings and other descriptive matter will remain the property of the Seller and must not be divulged to a third party. Copyright reserved to the Seller.

6. TEST
Our manufactures are carefully inspected and where practicable are submitted to standard tests at our works. We do not include any other tests whatsoever, unless otherwise agreed. All other tests would be charged for at extra cost.

7. PERFORMANCE
Any performance figures given by us are based upon experience and are such as we would expect to obtain on test. We shall be under no liability for damages for failure to attain such figures unless we are specifically guaranteed performance figures subject to recognised tolerances

8. DELIVERY
The time or date stated by us for the delivery is given and intended only as an estimate and is not essence of the contract unless otherwise stated in writing. We shall not be liable to make good any damages or loss whether arising directly/indirectly from delay in delivery and you would have no right to cancel the contract for delay in delivery unless the date of delivery is stated in writing to be guaranteed.

Unless otherwise specified in our tender the price quoted includes delivery only and by any method of transport at our option. We shall not be responsible for unloading at the place to which the goods are delivered. When Delivery is requested to upper floors, lift access and additional personnel must be available.

9. PACKAGING
All Goods are packaged for domestic transportation via the Sellers own transport or prescribed carriers. The Buyer must notify the Seller in writing of any additional packaging requirements including packaging for container, air or sea freight prior to acceptance of the order. Additional packaging will be charged extra at cost.

10. CARRIAGE CHARGES
Delivery to UK Mainland is the Standard transport service. Delivery to Northern Ireland, any British Isle and export orders incur extra delivery costs. All export returns incur further cost.

Additional charges may be applicable for deliveries made to an "end user" or other non "central store" location. This must be previously agreed in writing on a quotation and/or detailed on official order. Minimum order value of £500, see point 17.

11. DAMAGE IN TRANSIT
When the price quoted includes delivery we will repair free of charge any goods in transit, provided the carriers and ourselves receive written notification to such damage within 3 days of delivery. All delivery notes must be signed by a responsible person and if goods are damaged in transit this must be stated on the delivery notes. Otherwise we would not be responsible for repair or replacement.

12. VESTING
The property in the goods and materials supplied under this contract shall remain in the vendor until the purchaser has made full payment and it is further agreed and declared that should any of the goods supplied under this contract be incorporated in any goods or equipment being manufactured in turn by the purchaser the title and property to such goods shall belong to the vendor until such payment has been made as before.

13. GUARANTEE (NEW ITEMS)
In place of all other conditions or warranties whether imposed by statute or implied by common law, we undertake:

We will repair or if necessary replace free of charge any materials or work found to be defective if the defect is due to a fault in manufacture or bad workmanship and is brought to our notice within 12 months of completion of the work provided. On condition that the defective part is returned to us works free of charge and in the case of factored items of equipment forming part of the plant in our supply we would pass on the maker’s guarantee for such parts. We shall not be liable for any consequential loss or damage caused directly or indirectly by any defective part.

14. GUARANTEE (USED ITEMS)
In the case of second hand equipment unless otherwise specified the limited guarantee is six months with the exception of the electro-static equipment which is sold as seen. We shall not be liable for any consequential loss or damage caused by or indirectly by any defective part.

15. ELECTION
Where the contract provides for erection unless otherwise stated our tender includes the requisite skilled supervision of erection only. You shall provide suitable access to and possession of the site. Proper foundations ready to receive the plant as and when delivered, adequate lifting tackle, scaffolding, all other skilled and unskilled labour, joiners and builders work, suitable protection for the plant from time of delivery and all necessary facilities and adequate assistance for erection and test, including supplies of water, power, light, gas compressed air and other materials necessary for such tests, all of these to be supplied at your expense to enable erection to be carried out under our supervision.

16. PRICE ESCALATION
Quoted prices valid for six months from submission date based upon the current raw material rates and we reserve the right to modify our offer should increases occur following the six months in the interim periods between quotation, official purchase order and contract completion dates. In the event of dispute C.P.A. shall apply in line with B.E.A.M.A.

17. PAYMENT
Payment of the price for the Goods is due in GBP payable within 30 days of the invoice date or unless otherwise agreed in writing to be a different payment term for a specific tender.

No payment shall be deemed to have been received until the Seller receives cleared funds. Payments for credit card orders will be authorised and actioned at the time of order. The Seller reserves the right to make additional charges for credit card sales providing the Buyer is notified at time of purchase.

An administration charge of £12.50 will be made by the Seller to all orders with a net invoice value of less than £500 before carriage charges added unless otherwise agreed in writing.

The Buyer shall make all payments due under the Contract in full without any deduction. If the Buyer fails to pay the Seller any sum due pursuant to the Contract, the Buyer shall be liable to pay interest to the Seller on such sum from the due date for payment at the annual rate of 6% accruing on a daily basis until payment is made, whether before or after any Judgment. The Seller also reserves the right to claim interest under the Late Payment of Commercial Debts (Interest) Act 1998.

18. RETURN OF GOODS
Goods Ordered in Error
The seller will accept return of Goods ordered in error provided by the buyer advises the seller, within 5 days of receipt of delivery. Returned goods must be unused, in original package.

The buyer agrees to return the goods ordered in error to the seller, at the buyers risk and cost. The seller recommends that the buyer organise collection of the goods by the seller to reduce risk of damage (charges apply).

A credit note will be issued following receipt and inspection of the goods by the seller, which will be subject to a 35% restocking charge of the net order value but this will be reduced by 10% if the goods are replaced by similar value.

Costs incurred in collection will be charged at carriage cost.

Faulty/Damaged Goods
The buyer must advise the Seller of any goods that were delivered damaged/faulty within 5 days of receipt of delivery.

The seller will organise collection of returned goods at their own expense plus delivery of correct items. Returned goods must be stored properly and not used or damaged.

Returned goods must be unused and in original packaging.

Goods that have been used will not be accepted by the Seller on grounds of Health & Safety.

19. QUALITY AND WARRANTY
Products are guaranteed for a period of 3 years from date of delivery against manufacturing defects, apart from the following components which have 12 months warranty: Mechanical & electronic locks & keys, Gas struts, Rechargeable batteries, Linear & hydraulic actuators, Electronic components, Plastic components/Side panels, Castors, Drawer runners

Provided that the Buyer has complied with its obligations hereunder and has subjected the Goods to reasonable use then if the Goods become defective due to failure of design or manufacture during the warranty period (specified by the Seller) then the Seller will either repair, supply a replacement part or replace such Goods or refund the price of such Goods at the pro rata Contract rate (at the Seller’s discretion but after consultation with the Buyer).

TERMS & CONDITIONS
The above warranty is in addition, not substitution for the Buyers statutory rights (if any) but the parties agree that in normal circumstances the above warranty is likely to be sufficient to adequately recompense the Buyer.

Any Goods replaced under Warranty shall be guaranteed under the Warranty for the unexpired portion of the warranty period.

The Seller shall not be liable for a Warranty claim unless:
a) The Buyer gives written notice of the defect to the Seller within the warranty period.
b) The Seller is given a reasonable opportunity after receiving the notice of examining such Goods and the Buyer (if asked to do so by the Seller) returns such Goods to the Seller’s place of business at the Sellers cost.
c) The Buyer makes no further use of such Goods after giving such notice.
d) the defect arises because the Buyer failed to follow the Seller’s oral or written instructions as to the storage, installation, commissioning, use or maintenance of the Goods or (if there are none) good trade practice
e) the Buyer has made no alters or repairs to such Goods without the written consent of the Seller.

1. LIMITATION OF LIABILITY

Save in respect of damages for death and personal injury, the Seller’s liability for negligence shall be limited to the amount of its relevant insurance policies.

The Seller shall be under no liability to the Buyer in respect of any breach of contract for any indirect or consequential loss or for any loss of profits, income, provision of care or medical services, hospital or premises availability, increased costs, hire charges, remote or unforeseeable losses nor for any third party losses (and the Buyer should insure against these risks).

As the Seller offers warranty and return of Goods the Sellers liability in contract shall not exceed a figure equal to twice the Price.

2. FORCE MAJEURE

Either party shall have the right to defer Delivery or to cancel the Contract or reduce the volume of the Goods ordered if it is prevented from performing the Contract due to unforeseen circumstances beyond its reasonable control (“Force Majeure” which expression includes Force Majeure affecting a supplier or subcontractor) provided that they shall inform the other party of all the circumstances and if they are prevented from performing the contract for more than 180 days then either party may give notice in writing to terminate the Contract.
Shuttleworth Medical Ltd.
The first choice for medical equipment and furniture

Manufacturers and suppliers of hospital ward equipment, based in Ipswich, UK. Founded in 1953 in the UK, we are an established name in the production of medical related furniture and equipment.

Our vast design and manufacturing experience gives us the capabilities to be able to offer bespoke solutions specific to user requirements, in addition to our standard range of products.

Many of our products were originally designed in conjunction with staff from various directorates within the NHS.
