## Single Column Medical Chair Variations

Our single column medical chair is available in a number of different configurations that can be customised to the exact needs of each clinician.

Configurations include plaster treatment tables, phlebotomy arms, swing down armrests, split legs (manual or electrically operated), a tilting seat and many other accessories.

Our standard variations offer chairs suitable for Podiatry, Plaster/Treatments & Phlebotomy procedures. All with the option of a tilting seat.

This modern, compact chair is perfect for rooms with limited space. This versatile product can be used in conjunction with many accessories to further aid the requirements of the clinician.

### Matching Saddle Stool

Why not also purchase a matching roller saddle stool with foot ring to compliment the medical chair?

See the full range on page 46.

## Phlebotomy Chair

Designed for patient comfort and easy access for the phlebotomist, this variable height chair comes with two fully adjustable armrests and split legs. This chair can also be used as a standard three section examination couch.

### Standard Features:

- 260kg safe working load for electric mechanism
- 225kg safe working load for hydraulic mechanism
- Fully adjustable ergonomic padded arm supports
- Split legs with telescopic foot supports
- Gas spring assisted back and leg sections
- Retractable rubber castors & Adjustable foot for uneven floors
- MRSA resistant anti bacterial & fire retardant upholstery
- Extra low entry height for wheel chair transfer
- World leading Linak 'High Reliability' actuators
- Upholstery available in 14 standard colours

## Split Leg Tilt Table

The Split Leg Tilt Table offers identical functionality as the standard tilt table but allows the patient's legs to be strapped separately, this provides a much greater feeling of security for the patient during use.

### Standard Features:

- 180kg safe working load for electric mechanism
- Large lockable castors suitable for patient transportation
- Electric height & tilt control
- 4x Velcro patient harnesses
- Single piece, fixed foot board for patient comfort
- Patient handles included
- Inclinator supplied as standard
- MRSA Resistant Anti Bacterial & Fire Retardant Upholstery
- World leading Linak 'High Reliability' actuators
- Upholstery available in 14 standard colours
- Manufactured in the UK and CE Marked
- **Warranty:** 7 Years on Couch Frame & 3 Years on moving parts

### Popular Options & Accessories:

- Patients Table
- Extra Wide Upholstery Surface (75cm)
- Tilting Foot Board

## C-Arm Imaging Table

Our latest product has been designed for a wide range of applications including: Day Surgery, Vascular Studies and Pain Management Procedures.

Combining 150cm of artefact free imaging platform with Medi-Plinth's proven column lift technology. Low entry height, ensures superb access for the most challenged patients and an accessory range offers positioning solutions for most procedures.

**Standard Features:**

- Safe Working Load: 200kg (evenly distributed)
- 150cm Unobstructed artefact free imaging area
- Carbon Fibre Top dimensions: 208cm x 61cm (Length x Width)
- Adjustable Height: 58–98cm (excluding mattress)
- Narrow base frame for ease of patient transfer
- Fully-locking medical grade anti-static castors
- Easy access emergency stop button for extra patient safety
- Manufactured in the UK and CE Marked
- **Warranty:** 7 Years on Couch Frame & 3 Years on moving parts

**Popular Options & Accessories:**

Available with a specific range of accessories that can provide positioning solutions for most procedures. **Contact us for details.**

**Product Title****Delivery Bed and Accessories****Product Code****DB02**

## Delivery Bed

A strong, safe and versatile birthing platform designed to provide comfort, safety and dignity for a mother while offering excellent access and ergonomic benefits for clinical staff.

During early stages of labour the bed is configured as a standard bed with electric backrest for patient comfort and electric height adjustment all controlled using a convenient handset.

For delivery the foot board and foot section of the mattress are quickly removed and the foot platform slides into an unobtrusive parking position under the seat. There is a selection of versatile leg troughs, foot supports and hand grips for labour.

For recovery the foot section is put back into place, reverting the bed back into its standard configuration.

**Standard Features:**

- Compact size to fit all delivery rooms
- Electrically controlled operation with battery back-up
- Manual quick release for head section
- CPR handset function & Rubber corner bumpers
- Single hand operation plastic safety sides (with inclinometer)
- Retractable foot section to allow greater access
- Two part Visco memory foam mattress set
- Large size 'Tente' wheels with linked system
- Various easy fit accessories are available
- Stainless steel accessory rails to both sides of the bed
- Accessory cart with locking castors

## Mobile Operating Table

Our Mobile Operating Table offers an extremely rigid and stable operating platform that can be tailored to the precise needs of the clinician. The built in battery system provides full functionality of the table for extended periods while away from mains power supply.

In addition, a wide range of specific accessories can be added for greater flexibility during surgical procedures. See below for further information.

### Standard Features:

- 260kg safe working load for electric mechanism
- Electric variable height, backrest, and tilt adjustment
- Trendelenburg and reverse Trendelenburg positioning
- Built in battery system whilst unplugged from mains supply
- All sections have X-Ray translucent surfaces
- Linked Castor Base creates option for castors to run freely, a two wheel steering lock, or to be fully braked
- Removable split leg sections with Lithotomy recess
- Mattresses are anti static coated and can be removed
- Each mattress features an anti microbial air filter panel
- Manufactured in the UK and CE Marked
- **Warranty:** 7 Years on Couch Frame & 3 Years on moving parts

## Veterinary Consultation Tables

The ergonomic benefit of variable height tables in the medical field has long been appreciated. Similarly lifting large animals to a comfortable working height can lead to injuries for staff.

This table enables the animal to mount, or be low level lifted, on to the table. The table can then be lifted by a hydraulic foot pump (shown) or an electric actuator to a convenient working height.

### Standard Features:

- 260kg safe working load for electric mechanism
- 225kg safe working load for hydraulic mechanism
- Proven Medi-Plinth Lift and Tilt System (Horizontal to Vertical)
- Transportation Castors as standard
- Tough Melamine faced SRBP surface in your choice of working surface length
- Choice of surface lengths – 100cm, 120cm, 150cm and 180cm
- 60 cm standard width (for ease of mobility through standard single doors)
- Other sizes can be made to order
- Manufactured in the UK and CE Marked

## Medi-Storage Trolley Range

Medi-Plinth's new range of versatile medical storage trolleys provide medical professionals with well-designed simple storage solutions.

Two size options are available for the medical grade plastic trays (made from ABS plastic which allows excellent visibility and cleanliness).

The trays are available in four different colour options and all trays are fully interchangeable with all trolleys, allowing maximum user flexibility.

These trolleys are constructed using mild steel frames and are epoxy powder coated for a strong durable finish. The trolleys include a removable drop-in top for ease of cleaning.

### Trolley Features:

- Strong robust design which is supplied fully assembled
- Epoxy powder coated for easy cleaning and a durable finish
- Trays available in two sizes and a four colour options
- Trays are interchangeable allowing a variety of combinations
- High quality "Tente" castors including two front brakes
- Grey rubber buffer wheels for protection against obstacles
- Manufactured in the UK
- **Warranty:** 5 Years manufacturers warranty

Trays are available in four different colour options and all trays are fully interchangeable with all trolleys.

### Medi-Storage Trolley Accessories:

#### Medi-Storage Trolley Handle and Accessory Rail

Simple robust modular designed handle and accessory rail. Easily added to allow use of accessories

**All trolley accessories require this accessory rail for use**

#### Glove Box Holder

Designed for easy drop-in use (glove box not provided)

**Holds:** 126x231x78mm / **Overall:** 233x130x82mm

#### Hand Sanitiser Holder

Designed for easy drop-in use (hand Sanitiser not provided)

**Holds:** 231x92x88mm / **Overall:** 233x96x90mm

#### Document/Clipboard Holder

Designed for easy drop-in use (clipboard not provided)

**Holds:** 366x236x26mm / **Overall:** 368x240x30mm

#### Universal Sharps Bin Holder

Allows use with most standard sizes of sharps bin (Up to 7ltr)

Includes retention band and clip (Sharps bin not provided)

**Holds:** 205mm Diameter Bin / **Overall:** 230x130x118mm

## Medi-Workstation Carts

Affordable, lightweight, easily manoeuvred and extremely functional in any medical setting.

### The Medi-Workstation EPMA Cart

For nurses and clinicians, accessing clinical documentation is of paramount importance.

This cart, with hot swap battery technology, has been designed to allow users to combine access to IT applications with a flexible storage solution whilst maintaining the benefits of being height adjustable, lightweight and with a wide range of hardware mounting options which ensure that access to printing and scanning is as unobtrusive as possible.

With a flexible range of storage configurations, Medi-Workstation EPMA Cart provides the user with a complete mobile workstation suitable for EPMA applications with hot swap battery technology.

### The Medi-Laptop EPR Cart

Affordable, lightweight, height adjustable, easy to clean and with a secure way of mounting a variety of laptops. The Medi-Laptop EPR Cart is lightweight, easy to use and highly manoeuvrable.

Effortless height adjustment from 80cm to 120cm offers a greater height span for guaranteed comfort, whether sitting or standing.

## Medi-Dispensing Carts

Our dispensing carts have been designed with a focus on IT integrations and ergonomic usage.

### The Medi-Storage EPMA Carts

Dispensing medication is a major part of any EPMA roll out with more focus on accurate scanning of barcodes. Subsequently, the ability to add IT systems to carts is now key to a successful implementation.

These carts are available in both powered and non-powered options, they can be configured to support laptops, thin clients and even PCs. This ensures that sacrifices need not be made on either the storage aspect or the chosen IT specification.

### The Medi-Dispensing Cart

We are aware that back related workplace absences have been an issue in NHS Trusts that have rolled out dispensing carts for EPMA. Many EPMA carts have been manufactured to maximise storage space and not ergonomics. Drawer systems traditionally start at floor level up to waist height. In everyday use, clinical staffs have to bend down to access medication.

To combat this, we have introduced a posture friendly medication dispensing cart. Configurable to support Laptop or Panel PCs, our unique patented mechanism brings all stored medication up to waist height, allowing for comfortable access.

The unique rotational drawer system provides access to medication at a comfortable height. We are confident this concept provides substantial storage and more importantly, removes back related strain issues, resulting in fewer absences.

## Upholstery Details

The upholstery on all Medi-Plinth couches has been developed over a number of years to eliminate folding, stitching and minimise creasing. This ensures smooth coverage and easy maintenance of infection control.

### Upholstery comes in 14 standard colours

All Medi-Plinth products are upholstered in durable and comfortable vinyl which inhibits MRSA (3352 Methicillin resistant to Staphylococcus Aurous) Bio-Pruf treated to resist the growth of mould, mildew and odour causing microbes. The Vinyl is also fire retardant.

Most couches are available with extra wide upholstery, which offers improved general comfort and access especially when treating larger patients. You will be required to include your vinyl selection as part of your couch order.

### Resistance to Stains and Chemicals:

The fabrics are resistant to most mild acids, alkalis and household stains. Some substances such as ballpoint pen, lipstick, and food colourings may be absorbed by the vinyl and cause permanent staining. This can be minimised by immediate cleaning with a damp soapy cloth or sponge.

Care should be taken to protect the vinyl from oil based products (including body oils) as continued contact will cause the vinyl to harden.

## Upholstery Cleaning

To maintain their appearance and quality, the fabrics should be cleaned regularly to remove fatty substances and soiling. Light soiling can be removed by wiping with a damp, soapy cloth or sponge and subsequent rinsing with water before drying. If dirt is ingrained, the surface may be scrubbed with a soft brush. For stubborn stains a mix of one part methylated spirits to five parts water may be used. A very mild antiseptic may also be used if required.

All of our ranges have been tested and are capable of withstanding the most rigorous cleaning regime. Our fabrics can be used with all **NHS approved cleaning** solutions such as Chlor-Clean, Haz-Tab, Milton and Tristel. Clinell wipes and other alcohol based wipes are safe to use on our vinyls.

**Caution:** Do not use chemical bleaching materials, solvents, abrasive cleaners, wax polish or aerosol spray polishes. The use of these substances is likely to be harmful to PVC coated fabrics and repeated use can result in the removal of the plasticiser of the PVC compound, which will result in hardening and subsequent cracking of the material surface.

## Plinth Options

Extend & enhance the functions of your plinth to better suit individual requirements and ensure your plinth is cost effective.

**These options must be purchased with your initial plinth order.**

1. **VS01** – Visco Elastic Memory Foam Mattress  
This removable, easy to clean mattress replaces standard upholstery for medical applications.
2. **CL2** – Clean Edge Base Cover  
The 'Clean Edge' base cover provides an easily wiped clean surface which covers over the base mechanism. Giving a more stylish visual impression, the cover is ideal combined with anti static mattress options for aseptic areas.
3. **LCB01** – Linked Castor Base System  
Ideal solution for patient transport. A single pedal either locks and brakes all four wheels, or enables two wheels to be directionally locked for ease of steering. All four wheels can also swivel, allowing sideways positioning.
4. **BOS** – Battery Operating System  
Enables 25+ lift cycles on a full charge to be used whilst away from mains power.
5. **BBU** – Battery Back Up  
Allows 1-2 full cycles, designed for use in a power outage.
6. **EB01** – Electric Backrest
7. **EB02** – Electric Tilting Seat  
Enables seat section to tilt 25°, also used to facilitate Trendelenburg position.
8. **EB03** – Electric Foot Section
9. **EB04** – Electric Split Leg Foot Section
10. **BR01** – Heat Moulded Oval Breathing Hole and Bung
11. **BR02** – Stitched Keyhole Breathing Hole and Bung
12. **BR03** – Stitched Long Breathing Hole (Flexion) and Bung
13. **EW1** – Extra Wide Upholstery  
Provides for a wider patient surface at 75/120cm
14. **CA01** – Transportation Castors  
Can be added at no additional charge to enable transportation of patients
15. **DE01** – Adjustable Arm Rests  
Black PU coach style arm rests with angle adjustments and fold up capability
16. **BE01** – Bariatric Arm Rests  
Large shaped PU top pad arm rests with angle adjustments and fold up capability
17. **PT02** – Tilting Patient Table  
For use alongside Tilt Tables, this table provides a multi positional platform for meals and activities
18. **TF01** – Tilting Foot Board
19. **TF01** – Split Leg Tilting Foot Board
20. **AR01** – Padded Arm Table Extensions
21. **DP01** – IV Drip Pole and Retractable Bracket (Plated)
22. **PFB01** – Peripheral Foot Bar (for electric height adjustment)  
Only available on Physio+ couches
23. **FDPA01** – Fold Down Padded Arm Rests Pair (Day-Care Style)

## Plinth Accessories

We also offer a large range of accessories to compliment your plinth. From Cot Sides to Headrests, we can supply accessories improving patient comfort or allowing your plinth to be capable of use for a range of procedures.

**These accessories can be purchased whilst ordering your couch or they can be added at a later stage.**

1. **AL01** – Fold Down Arm Loops
2. **PHL1** – Phlebotomy Arms
3. **CO01C-P** – Cot Sides Chromed (Pair)  
**CO01C-S** – Cot Side Chrome (Single)
4. **CP01C-P** – Cot Sides Chromed Padded (Pair)  
**CP01C-S** – Cot Side Chrome Padded (Single)
5. **CO01-P** – Cot Sides Painted (Pair)  
**CO01-S** – Cot Side Painted (Single)
6. **CP01-P** – Cot Sides Painted Padded (Pair)  
**CP01-S** – Cot Side Painted Padded (Single)
7. **DHR01** – Detachable Headrest
8. **DI01** – Divided Legs
9. **DPT1** – Plastic Treatment/ Plaster Table
10. **FO01** – Foot Switch Single  
**FO02** – Foot Switch Double  
**FO03** – Foot Switch Triple
11. **GY01** – Gynaecology Stirrups
12. **GY03** – Gynaecology Knee Troughs
13. **GY05** – Gynaecology Foot Pads
14. **OBH** – Oxygen Bottle Holder
15. **PR01** – Paper Roll Holder
16. **SSUPH** – Super Soft Upholstery
17. **WSB01** – Foot Section Wall Storage Bracket for GP Gynae
18. **VE03** – Velcro Harness (Set of 3)
19. **PUAHR01** – Moulded Head Support
20. **PUAHR02** – Moulded Headrest
21. **FP01** – Foot Protection Cover
22. **SDA01** – Swing Down Arm Rests
23. **DUB01** – Diagnostic Unit Bracket
24. **SSAR01** – Stainless Steel Accessory Rail

## Modular Storage Trolleys

Our modular storage trolleys are designed around the International ISO 600mm x 400mm storage trays, which when properly implemented can provide up to 50% more storage.

Your choice of configuration holding either six 200mm diameter or three 100mm and one 200mm diameter HTM71 ABS Trays.

These trolleys feature durable steel frames and help provide quick access to efficiently stored equipment, in hospitals and other medical facilities.

### Standard Features:

- Manufactured from mild steel
- Removable stainless steel top
- Mounted on 4x 100mm swivel castors
- Powder coated in white epoxy for ease of cleaning

## General Product Information

Further information on our production materials, manufacturing processes, maintenance/aftercare advice and other reference information, all relevant to the Shuttleworth Medical products currently available.

### Product Warranties

We have confidence in the quality and reliability of our products and offer a three year warranty across our range. This does not cover accidental damage or 'wear & tear' (more information is included at back of catalogue)

**Please note these select components are excluded from the three year warranty and are limited to a 12 month warranty:** Actuators, Electronic components, Plastic components, Locks & Keys, Rechargeable batteries, Gas struts, Castors, Drawer runners, Upholstery

### Product Sizing

Dimensions are stated in millimetres (width x depth x height). Please ensure you are fully aware of the item size prior to ordering.

### Keys & Locks

**We offer additional/spare keys for all our locks.**

All locks should open/close easily and operate smoothly. If they do not, arrange those locks be checked immediately and have these replaced if required.

Locks should be periodically lubricated with a dry lubricant, other than this no maintenance is required. Never use oil on our locks, as this will cause damage.

### Castors

Suitable castors are selected to satisfy the anticipated product use. All castors have non-marking tyres (excludes select anti-static castors). Our anti-static castors feature a yellow indicator near the tyre.

Castors will need regular cleaning to ensure a long life, no other maintenance is needed and no oils should be used on any castors. We advise all fittings are regularly checked and tightened as needed to ensure they are secure and safe for use

Anti-static castors should have tyres cleaned periodically to remove any dirt/dust, ensuring good contact between the tyre and ground

### Stainless Steel

We use 304 stainless steel which is non-magnetic whilst resistant to oxidation and corrosion. Other grades of steel are available on request (316 for example).

**Note:** Certain chemicals can still damage the surface of our stainless steel. Iodine can cause serious corrosion and should never be used as a cleaning agent.

### Laminates & Wood

We use flame retardant 'High Pressure Laminate' bonded to MDF. Edges are protected with 2mm ABS high impact edging tape. Both our laminated and melamine facing panels offer a level of resistance to water penetration during regular use. We only use water based adhesives and varnishes.

## Shuttleworth

### Upholstery

We use identical upholstery vinyl as Medi-Plinth, their team has vast experience and has taken time to select the best quality vinyl available. **Upholstery details can be found on Page 30.**

### Latex

All of our products are latex free

### Paint

We only use lead-free epoxy/polyester powder paint. Paint is applied in booths to recycle any over-spray when possible. Alternative colours are available, this may incur a surcharge.

### Cleaning

The maintenance of high standards of cleanliness on all surfaces and equipment is a crucial factor in the prevention and control of infection. Whilst dust, dirt and moisture can harbour infection, the key risks are associated with contamination arising from contact with blood, body fluids, mucous membranes and damaged skin. In all cases surfaces must be thoroughly cleaned and disinfected in order to destroy pathogenic micro organisms.
